

# CERTIFICATIONS

The attention of Atlantis towards the *Quality, Safety and Sustainability* of the product is constant and is ever-growing. To questions linked to the climate change, pollution, product safety and health risks, Atlantis has chosen to answer actively by certifying the product quality and safety as well as its own internal policy in terms of ethical and sustainable business practices. Not only does transparency represent for Master Italia a real and objective testing process through a certifying practice, but also and above all a business philosophy.

*The business ethics, quality, safety and sustainability* of its own products and actions represent for Atlantis necessary values. That is why Atlantis has started various certifying processes linked to the product ethics and quality.

The standard SA8000 as well as the online platform SEDEX meet the need to highlight and communicate the company values in terms of Social Responsibility on which Atlantis bases its every single action.

Its purpose is the constant improvement of working conditions within the respect of human and employees' rights by arranging an internal policy for the Social Responsibility. Ethics and Products go hand in hand at the same pace : an ethical and responsible business policy means that the business enterprise has to create a safe and sustainable product. The real task of Atlantis towards the quality and safety of materials, results in the quality and safety trademarks BY YOUR SIDE (in accordance with the REACH (EC) regulations no. 1907/2006) and OEKO-TEX. By processing its materials through laboratory controls, Atlantis guarantees their quality, safety and sustainability.

## ETHICS

## PRODUCT
